

Abdelmajid Yahya

Flutter Developer

abdelmajid152@gmail.com | +96565008632 | Kuwait, AL-FARWANIYAH | linkedin | github

SUMMARY

Mobile App Developer with 3+ years of experience specializing in the Flutter framework. Expert in building high-performance applications for both Android and iOS. Proficient in various state management techniques, including BLoC, GetX, and Provider, with extensive experience integrating RESTful APIs and Firebase databases.

EDUCATION

Omdurman Islamic University,
Bachelor of Science (B.Sc. Honours)
Specialization Information Systems

11/2015 – 12/2021 | Khartoum, Sudan

WORK EXPERIENCE

BOOTHAT COMPANY FOR ADVERTISING MARKETING,

Flutter developer

10/2024 – Present

Kuwait, Al-Farwaniyah

- Collaborated with cross-functional teams to design and implement scalable app architectures and reusable UI components.
- Optimized application performance by identifying bottlenecks and implementing efficient state management solutions.
- Developed and maintained high-performance mobile applications using Flutter, ensuring seamless user experiences across iOS and Android platforms.

Khamsat.com | *خمسات*, junior flutter developer

02/2022 – 10/2024 | remotely

- Developed and maintained high-performance mobile applications using Flutter, ensuring seamless user experiences across iOS and Android platforms.

TECHNICAL SKILLS

State Management

BLoC (Cubit), GetX, Provider.

Databases

Local Database (Sqlite, Hive)

Backend Integration

RESTful APIs (Dio, Http), Firebase (Auth, Firestore, Cloud function).

Architecture

Clean Architecture, MVC, MVVM.

Tools

Git/GitHub, CI/CD, Postman.

LANGUAGES

English — Proficient

Arabic — Native/Bilingual

PROJECTS

Shtgool Mobile Quiz Game

- Developed a cross-platform quiz application with over 25,000 downloads on the App Store and more than 5,000 on Google Play.
- Utilized Flutter for development, GetX for state management, and Firebase for authentication and real-time database services.
- Available for download on the App Store and Google Play : [App Store [↗](#) Google Play [↗](#)].

Aqarak Real Estate App

Description: A mobile application for buying and renting real estate properties, featuring advanced search and listing filters.

Tech Stack: Developed using Flutter, with GetX for state management and Firebase for data storage and user authentication.

Link: [GitHub [↗](#)]

WhatsApp Status Saver

Description: A utility application designed to view and save WhatsApp statuses (images & videos) directly to the gallery.

Tech Stack: Built with Flutter, utilizing GetX for state management and local storage handling.

Diya Alqalb

Designed a comprehensive Quran and Azkar application with a focus on intuitive UI and accessibility.

Tech Stack: Built with Flutter, utilizing GetX for state management and local storage handling.

Implemented API updates for real-time data retrieval to enhance application performance.
